

Press Release

Method Park sets up a location in Frankfurt on the Main

With its fifth location in Germany, Method Park will strengthen its relationship to its maintenance customers in the Rhine Main Area, enter new industries and increasingly offer courses there. Additionally, the company will position itself as an attractive employer for applicants in this region.

Erlangen, April, 25, 2015 – With a top quality location in Germany, the metropolitan area Frankfurt/Rhine Main is a center for numerous international companies from various industries. Besides banks and investment companies, the automotive industry – one of Method Park’s core sectors – plays a key role.

“Many automotive suppliers have European or German headquarters in the Rhine Main area – often combined with research and design centers. Some of these companies have taken advantage of Method Park’s expertise on software and systems engineering for many years. We would like to strengthen the commitment to these maintenance customers with our local presence”, says Method Park CEO Prof. Dr. Bernd Hindel. Furthermore, the consulting company wants to enhance its profile for new customers in this region from sectors such as mechanical and automation engineering.

So, the new Method Park location acts as sales representation and support on training and providing courses in the Frankfurt area.

By setting up its fifth German location, Method Park increases its profile in Frankfurt on the Main and thereby could increase its attraction to new employees.

The address of the new location:

ESCHBORN, Business Park, 2nd floor

Mergenthaler Allee 15-21

D-65760 Eschborn

Germany

Number of characters (spaces included): 1.509

About Method Park

For many years Method Park has successfully offered consulting in questions of software for safety-critical systems in the automotive industry and in the medical technology area, for which the company develops its own software solutions. Method Park brings extensive know-how to fields with high and extremely high safety requirements. With this knowledge Method Park offers its customers a variety of solutions from a single source that contribute to the success of each company. Method Park is the competent partner for consulting, coaching, training, engineering services and products for all questions of software development processes. The "Stages" Web-based process management portal developed by Method Park supports users with the practical implementation of development processes. Stages ensures the realization of predefined quality standards and process models and can be integrated in all common development environments. Furthermore, Stages enables the global distribution of development tasks beyond corporate boundaries. Founded in Erlangen in 2001, Method Park employs around 170 persons at sites in Erlangen, Munich, Stuttgart, Hannover and Frankfurt, as well as in Detroit, Miami and Pittsburgh in the USA.
